"I grew thanks to the process I experienced in the "Creating a Future" Program, where I gained weekly hands-on experience in the field of Human Resources.

After that, I volunteered for National Service at the National Insurance Institute, and today I work at the Amphenol Factory in Kfar Saba.

At the factory, they treat me like any other employee. I am very satisfied and feel that I am developing professionally"

**Yair Bilia**, graduate of "Creating a Future" Program and employee supported by IE's Job Placement Program
